

OUR COUNTRYSIDE
IS IN DANGER

SPEAK OUT
NOW!

Sign CPRE's charter to *save our countryside*

We must stand together to stop the destruction of England's countryside. Support our three demands.

■ **Don't sacrifice our countryside**

Our open spaces are being destroyed unnecessarily. Previously developed brownfield sites should be re-used first.

■ **A fair say for communities**

The cards are stacked in favour of developers. We want a democratic planning system that gives local people a stronger voice.

■ **More housing – in the right places**

The country needs affordable homes. They must be sensitively located, with excellent environmental standards and high quality design.
