

31st March 2015

Dear Sir/Madam

Cycle Live and the Great Notts Bike Ride – Saturday 20th June – Sunday 21st June, 2015

Many of you will remember the event which takes place at the Victoria Embankment. Our aim is to try to minimise the potential disruption that the event will cause to residents once the roads are closed and the event gets under way. The event begins on Saturday 20th June with Nottingham City Ride, a family friendly, predominantly traffic-free route with three available distances – 2.5, 7.5 and 10.5 miles all using the Big Track and other existing cycle ways around Nottingham.

There will be closures around the Embankment area for the whole weekend and if you require further information on these, please visit the FAQ section of our website www.cyclelivenottingham.co.uk.

On Sunday 21st June, over 4,000 riders will be taking part in the 34th Great Notts Bike Ride. As a result, the following traffic management provisions will be in place on Sunday 21st June:

All riders are obliged to comply with normal highway regulations. The roads and locations on or around the route are expected to be more congested than normal and we ask those that are using the highways on the day take extra care and try to keep to a minimum any cars parked on the street. We recognise that this may cause some short-lived inconvenience, but we hope that local residents will also enjoy the spectacle and help support those raising funds for such good causes.
