

Radcliffe Conservation Volunteers Work Session

Saturday 18th July

Slack Hollow, Meet at top of Valley Road Steps.

2 - 4 p.m.

We plan to dig out / re-bed the upper ditch to improve water run-off in wet weather.

Please bring:-

- A spade
- Rubber bucket
- Suitable work gloves
- Lump hammer (if you have one)
- Something to kneel on.
- Do bring a drink along.

You may also find some insect repellent useful.

Please wear suitable footwear as the ground is sloping and can be slippery if damp. Stout shoes or a pair of boots are ideal.

Please come and help us if you can spare a couple of hours. We'll also be able to tell you about future planned events.

If weather is poor on the day, please contact either

Phil Taylor on 0115 9119759

or

Dave Barton on 0115 9332633
