

Mental Health and Learning Disability Steering Group

We have a vacancy on the NHS Rushcliffe Clinical Commissioning Group Mental Health and Learning Disability Group.

The group meets bi-monthly, normally on a Thursday afternoon from 2 – 4 here at Easthorpe House, Ruddington.

You are able to claim travel expenses in accordance with the policy.

The purpose of the group is to provide a forum where issues and knowledge on mental health and learning disability service delivery can be shared and provided to the group in order to improve services commissioned in the future. The Terms of Reference for the Group are available if required.

Please let me us know expressions of interest by Friday 30th October 2015. If you could include a brief outline of your involvement and what you feel you would bring to the group from a patient perspective, this may assist if we have more responses than vacancies.

We are particularly looking for someone who could bring the perspective of people with a mental health condition (s), this could be as a patient or family carer.

Please contact mail@rushcliffeccg.nhs.uk if you are interested in joining this group
