

Nottinghamshire
County Council

The Budget Consultation

Whoever you are, Nottinghamshire County Council is always there to support you and your family

The County Council is facing a budget shortfall of £62m over the next three years. This is because our income has fallen, whilst demand for our vital services has gone up.

This means, in setting the budget for next year difficult decisions will need to be made, and that's why it's important we know what matters to you.
