Dear Sir / Madam

**CARRIAGEWAY RESURFACING WORKS – OATFIELD LANE, RADCLIFFE ON TRENT,
NOTTINGHAMSHIRE**

We are pleased to let you know that Nottinghamshire County Council has made money available to carry out improvement works along Oatfield Lane as part of an additional £20m investment on Nottinghamshire's highways.

The project will be undertaken by Via East Midland Limited, the County Council's partner of choice for highway works. The works will consist of resurfacing the road between the railway bridge and the Shelford Hill crossroads.

The works are part of a scheme in which we are focussing on improving a number of roads on our highway network, just like Oatfield Lane. We are investing £20m over the next four years, using various treatments to prolong the life and improve the surface of roads and pavements, as well as installing additional pedestrian crossings and interactive speed signs to further improve safety in the community.

To ensure everyone is safe whilst these works are carried out, it will be necessary to close the section of Oatfield Lane from just south of the bridge over the Nottingham to Grantham railway to its junction with Shelford Road / Shelford Hill. Access to your property will be maintained as far as is possible, but there may be some inconvenience when the workforce is working near your property. In addition, access from any particular direction may be restricted for a while.

The closure will be implemented from 8am on Monday 5th November to 5pm on Friday 16th November.

We will make every effort to adhere to the dates and times stated above. However, in the event of bad weather or unforeseen circumstances, these dates may need to change.

We would like to thank you for your patience and co-operation whilst these improvements are carried out along Oatfield Lane and we would like to assure you that every effort will be made to keep the disruption to a minimum. If you have any special circumstances or events we need to know about on a specific day, then please do not hesitate to contact me so that site management may be made aware of these so that we could be as accommodating as practically possible.
