****UPDATE** on Works at Rockley Park**

18th November 2022

Work to replace broken underground pipework continues to be ongoing at Rockley Park.

Unfortunately, these have continued longer than initially anticipated. Specialist contractors are estimated to complete week commencing 19th December (approximately a further 4 weeks).

It is deeply regrettable that the toilets remain unavailable during this period, as the water supply is still isolated.

Please take care when accessing the park from Park Road/Rockley Avenue as work may be ongoing during your visit however, we anticipate less disruption than before due to the new pipework being laid by a 'mole' device.

We will provide a further update on the works progress in due course. Thank you for your understanding during this time.

Please contact the Clerk if you have any further questions.

Cllr Oliver Bere – Chair of Amenities
